We will meet and assist you upon your arrival at the Airport or borders, then transfer you to visit the Mosaic church of Madaba and Mount Nebo.

We shall see the most famous mosaic, which is housed at the contemporary Greek Orthodox Church of St. George and which depicts the Holy Land.

This is a wonderfully vivid 6th Century mosaic map, comprising two million pieces of colored stones showing the entire region from Jordan, Palestine in the north, and Egypt in the south.

It is fun to spend a while picking out the various cities and admiring the little vignettes the artist incorporated into the map.

From Madaba we will drive 10km up the hill to reach Mount Nebo, a very important Christian site, recently visited by the Pope.

It was here, on the edge of the ridge overlooking the Dead Sea, that Moses first caught sight of the Holy Land, having led his people from Sinai. It is said that Moses also died and was buried here.

Then we will transfer to the Dead Sea, at 400 meters below sea level, the lowest point on earth.

At the Dead Sea we will spend the rest of the day where we can float in the mineral-rich waters, take a therapeutic black-mud massage, or just relax round the swimming pool with a drink.

The therapeutic sticky black-mud treatment, packed full of minerals and nutrients, comes highly recommended.

Visitors to the Dead Sea have an unforgettable experience as the high density of the water makes sinking virtually impossible!
